ITALNASTRI A NEW CHAPTER

Innovation and Quality at our core

ABOUT US

Established in October 2017 by the partnership between **Andrea F. Minazzi**, **Karim Shahir Barzegar** and **Giuseppe Varlonga** (industrial partner and leader in the market of siliconised liners with Rossella S.r.l.).

The newly founded Italnastri S.r.l. has taken over the entire industrial complex of Italnastri S.p.A., a **historic name** in the market of **self-adhesive papers and films (PSA)**, with **40 years of experience** and a solid market share in Italy and Europe.

The new Italnastri has been **building on the name and industrial know-how** of a historic brand, while at the same time implementing **new and more efficient procedures**, thus becoming a **reliable supplier of value-added self-adhesive products**.
